INTRODUCTION

We are making progress! The February 1990 edition of *STATISTICS & INPUT-OUTPUT MEASURES FOR COLORADO ACADEMIC LIBRARIES* reported 1988 figures. That is a lag of about a year from survey deadline to report. This July 1991 edition reports 1990 figures. That is a lag of about six months. The relative timeliness of this report should be credited in large part to a new cooperative effort within the Integrated Postsecondary Education Data System (IPEDS) project which involves a representative of each state's library community as well as the state IPEDS coordinator in the administration of the academic library survey. The Library Research Service not only provided that representation of the library community, but was presented as a model for other states to follow.

This edition begins with a section of tables organized by sector (i.e., public or private) and board (e.g., University of Colorado, State Board of Agriculture, Colorado Community College & Occupational Education System) which includes library-by-library statistics as well as summary figures for boards and sectors. Following the tables are three sections of charts which illustrate how Colorado's university, college, and community college libraries rank on selected statistics. For these charts, the strict sector and board divisions were abandoned to permit more reasonable comparisons.

Your feedback on this publication is very important to us. We plan to follow up this publication with analyses of particular issues which may constitute either another major publication or a series of *FAST FACTS* occasional papers during the next few months. We ask for your help in identifying and shaping the issues that need to be addressed in this way.

Let us hear from YOU.

FORTHCOMING REPORTS

Through the 1991-92 fiscal year, the Library Research Service will be producing two sets of statistical reports for Colorado's academic libraries: peer institution comparisons based on national responses to the 1990 IPEDS survey and trend analyses based on national responses to the 1985 HEGIS survey and the 1988 and 1990 IPEDS surveys.

Brief publications presenting a statewide perspective on these comparisons and trends will be followed by customized reports for individual libraries which will be produced on a first come, first serve basis. Also, requests for customized reports with a particular focus (e.g., staffing, collection development, or services) will be given priority over requests for across-the-board reports (e.g., staffing, collection development, and services). The more focused your request, the quicker it can be dealt with and the more of you we can serve.

In addition to these reports, please also be reminded of the following:

- When data from the 1990 national collection are too old to be useful, or when data not collected then are needed, a fast-response survey may be requested. Usually, such surveys involve asking a small number of pertinent questions of a small sample of libraries, and can be completed within a month. Samples for these surveys are not restricted to Colorado libraries. Survey results are reported statewide and to a selected national audience in *FAST FACTS: Recent Statistics from the Library Research Service.*

- For most libraries, we are equipped to take into account variable economic conditions, such as cost-of-living differences in peer comparisons and inflation in trend analyses.

- For use in planning and budgeting presentations, individual graphic elements--text, tables, or charts--may be requested on transparencies or slides in black-and-white or in color.

- Publications, customized reports, presentation graphics, and consulting on research are always available to Colorado libraries on request and at no charge.

INTRODUCTION

This 1990 edition of *Statistics & Input-Output Measures for Colorado Public Libraries* is the seventh in the current series. This volume contains:

- library-by-library responses to all items in the Colorado Public Libraries Annual Report 1990;
- summary statistics for seven ranges of population served and the state; and
- an index by data element.

A perennial problem statistic is the population of legal service area for each library. This year's edition is a month or so later in reaching you because of the controversy surrounding the 1990 U.S. Census. For several months, it appeared likely that the Census Bureau would break with tradition and correct its population figures for a known undercount. Planning to use the "corrected" figures in determining populations of legal service areas, we held up this publication. As you now know, those corrections were not made. As a consolation to those of you who may feel disserved by the official Census figures, be reminded that intercensal population estimates are provided by the State Data Center, Division of Local Government. Because their methodology is similar to that used to correct the Census, there is likely to be some correction for the undercount by the state between now and the year 2000.

Thanks to the IMPRESS spreadsheet publishing features now contained in LOTUS 1-2-3, we believe this year's volume is considerably more attractive than its predecessors. As always, we invite and welcome your comments regarding the format and content of this publication. (See also Forthcoming Reports.)

Readers interested in receiving customized reports of these figures in presentation-quality tables, charts, or maps need only ask for them. All publications and services of the Library Research Service are available to decision-makers for Colorado public libraries at no charge.

FORTHCOMING REPORTS

Between this edition of *Statistics & Input-Output Measures* and the next, four additional statistical reports for public libraries are planned:

- a one-page, ready-reference table of selected statistics for each population served group;
- a revision of Chapter X of *Guidelines for Public Libraries in Colorado*, which will provide up-to-date guidance for library planners in setting measurable objectives;
- a set of charts for each population served group illustrating how those libraries rank on each of the *Guidelines* statistics; and
- an analysis of statistical trends for Colorado public libraries, which will examine year-to-year changes between 1985 and 1990 and change at five-year intervals between 1940 and 1990.

During the next year, the Colorado Public Library Community Profile Database will be updated using 1990 U.S. Census data. Reports from this database will be available on request.

Already available on request are reports comparing a Colorado library's statistics with those of its "peers" nationwide. Peer groups may be defined by the requesting library on the basis of any statistics in the national database. This is the long-awaited "payoff" for our participation in the Federal-State Cooperative System for Public Library Data. Note, however, that the national statistics available to us will generally be one year older than our latest state figures.

The national database of public library statistics may also be used as a basis for drawing samples of public libraries for *FAST FACTS* fast-response surveys. Indeed, that has already been done twice.

DEFINITIONS AND USES FOR INPUT-OUTPUT MEASURES

INPUT MEASURES

This section defines input measures and describes their possible uses.

FTE STAFF PER 1,000 SERVED

FTE Staff Per 1,000 Served relates the number of full-time equivalent (FTE) staff to the number of persons in the library's legal service area. It is the number of library staff in FTE's divided by the number of persons in that area.

Full-time equivalent (FTE) staff is the total number of hours per week worked by all staff divided by 40. In this context, full-time means 40 hours per week, regardless of how many hours per week the library is open.

FTE Staff Per 1,000 Served measures the library's level of staffing relative to its service population.

This input measure may be relevant whenever the adequacy of library staffing and staff funding are issues. It is particularly useful when the population or geographical area which the library is established to serve increases dramatically. When that happens, there should be a corresponding increase in staff just to offset the population increase.

FTE STAFF PER 10,000 CIRCULATION

FTE Staff per 10,000 Circulation relates the size of the library's staff to the number of loans they make. It is the number of staff in FTEs divided by total annual circulation in tens of thousands.

This statistic is a measure of workload on the staff relative to circulation. This figure will be of special interest to libraries playing the role of Popular Materials Library.

FTE STAFF PER 100 REFERENCE

FTE Staff per 100 Reference relates the size of the library's staff to the number of reference questions they handle. It is the number of staff in FTEs divided by total annual reference questions (i.e., reference questions per typical week multiplied by 52) in hundreds.

This statistic is a measure of workload on the staff relative to reference service. This figure will be of special interest to libraries playing the roles of Reference Library, Research Center, and Community Information Center.

VOLUMES HELD PER CAPITA

Volumes Held Per Capita relates the number of volumes or units in the library's collection to the number of persons it was established to serve. It is the number of print volumes as well as non-print units held by the library divided by its legal service area population.

This figure indicates the average number of volumes held for each person in the library's legal service area population.

This input measure may be relevant whenever the size of the library's collection is an issue. It is particularly useful when the population or geographical area which the library is established to serve changes dramatically. For example, in the latter case, there should be corresponding increases in Materials Expenditures as well as Volumes Held Per Capita just to maintain the existing ratio of holdings to persons served.

SUBSCRIPTIONS PER 1,000 SERVED

Subscriptions per 1,000 Served relates the number of current periodicals subscriptions carried by the library to the size of the population it serves. It is the number of current periodical subscriptions divided by the population served in thousands.

This statistic is a measure of the size of the library's current periodicals collection relative to the population it serves. This figure will be of special interest to libraries playing the role of Formal Education Support Center, Independent Learning Center, Reference Library, and Research Center.

VIDEOS PER 1,000 SERVED

Videos per 1,000 Served relates the number of video materials in the library's collection to the size of the population it serves. It is the number of video cassettes (or disks) divided by the population served in thousands.

This statistic is a measure of the size of the library's video collection relative to the population it serves. If the video collection focuses on entertainment fare, this figure may be of special interest to libraries playing the Popular Materials Center role. If the collection focuses on educational or instructional fare, this figure may be of special interest to libraries playing the Formal Education Support Center role.

AUDIO-VISUAL UNITS PER 1,000 SERVED

Audio-Visual Units per 1,000 Served relates the number of audio-visual materials in the library's collection to the size of the population it serves. It is the number of A-V units (e.g., films, filmstrips, slide or slide-tape sets) divided by the population served in thousands.

This statistic is a measure of the size of the library's audio-visual collection relative to the population it serves. Assuming the collection focuses on educational or instructional fare, this figure may be of special interest to libraries playing the Formal Education Support Center role.

MACHINE-READABLE UNITS PER 1,000 SERVED

Machine-Readable Units per 1,000 Served relates the number of machine-readable materials in the library's collection to the size of the population it serves. It is the number of machine-readable units (e.g., CD-ROM, software packages, data diskettes, magnetic tapes, optical disks) divided by the population served in thousands.

This statistic is a measure of the size of the library's machine-readable collection relative to the population it serves. Assuming that the collection focuses on educational or instructional fare, this figure may be of special interest to libraries playing the Formal Education Support Center role.

STAFF EXPENDITURES PER CAPITA

Staff Expenditures Per Capita relates the amount of library funds spent on staff to the number of persons the library was established to serve. It is the dollar amount paid in salaries, wages, and benefits divided by the library's legal service area population.

This figure indicates the average cost per person of staffing the library.

This input measure may be relevant whenever the adequacy of library staffing or staff performance are issues. The cost-effectiveness of library services may be demonstrated by relating Staff Expenditures Per Capita to output measures which indicate the amount of service received (such as, Circulation and Reference Transactions Per Capita, and Program Attendance Per 1,000 Served).

It is also important to review this measure whenever the population of the library's legal service area changes. For example, with a dramatic change, there should be a corresponding increase in Staff Expenditures Per Capita just to maintain the existing level of support.

MATERIALS EXPENDITURES PER CAPITA

Materials Expenditures Per Capita relates the amount of library funds spent on materials for the collection (including print items such as books and subscriptions, and non-print items such as audio and video cassettes and films) to the number of persons the library serves. It is the dollar amount spent on such materials divided by the library's legal service area population.

This figure indicates the average cost per person of purchasing (but not processing) newly acquired materials.

Materials Expenditures Per Capita may be relevant whenever the size or usefulness of the collection is an issue. When addressing such issues, it may be useful to relate this figure to other input measures which indicate the quantity of materials available to users (i.e., Volumes Held Per Capita) and to output measures which indicate the usefulness of those materials (such as Circulation Per Capita, Turnover Rate, ILL Net Lending Rate, and ILLs Per 1,000 Circulation).

It is also important to review Materials Expenditures Per Capita whenever the population of the library's legal service area changes dramatically. For example, if the population to be served increases, there should be a corresponding increase in Materials Expenditures Per Capita just to maintain the existing level of support.

MISCELLANEOUS EXPENDITURES PER CAPITA

Miscellaneous Expenditures Per Capita relates the amount of library funds spent for purposes other than staff and materials costs to the number of persons the library is established to serve. It may include the dollar amount spent on miscellaneous operating expenses (including utilities, telephone and telecommunications, and office supplies) divided by the library's legal service area population.

This figure approximates the average cost per person of running library facilities.

This input measure may be relevant whenever the economy or efficiency of the library's day-to-day operations is an issue. The cost-effectiveness of library operations may be demonstrated by relating Miscellaneous Expenditures Per Capita to those output measures which best reflect the range of most frequently used services and programs the library provides to its users.

It is also important to review this measure whenever the population of the library's legal service area changes dramatically. For example, if the population to be served increases dramatically, there should be a corresponding increase in Miscellaneous Expenditures Per Capita just to maintain the existing level of support.

OPERATING EXPENDITURES PER CAPITA

Operating Expenditures Per Capita relates the total amount of library funds spent for all purposes to the number of persons the library is established to serve. It includes the dollar amount spent on staff, materials, and miscellaneous expenses divided by the library's legal service area population.

This figure approximates the average cost per person of running the library.

Operating Expenditures Per Capita may be relevant whenever the economy or efficiency of the library's overall operation is an issue. The cost-effectiveness of library operations may be demonstrated by relating Operating Expenditures Per Capita to those output measures which best reflect the range of most frequently used services and programs the library provides to its users.

It is also important to review this measure whenever the population of the library's legal service area changes dramatically. For example, if the population to be served increases dramatically, there should be a corresponding increase in Operating Expenditures Per Capita just to maintain the existing level of support.

STAFF EXPENDITURES AS A PERCENT OF OPERATING EXPENDITURES

Staff Expenditures as a Percent of Operating Expenditures is the sum of all staff expenditures for salaries, wages, and benefits divided by the sum of all operating expenditures for staff, materials, and other purposes.

This measure indicates the proportion of the library's annual operating expenditures which is spent to compensate staff.

Generally, this figure comprises the single largest proportion of operating expenditures. Accordingly, the higher this figure the better. If this figure is extremely high, however, it may indicate a lack of adequate funding for other aspects of library operations; and, if extremely low, it may indicate a lack of commitment to having professionally trained library staff--indeed, in the most extreme cases, any staff at all.

This measure is especially important for libraries whose chosen roles are particularly labor-intensive (e.g., reference library, research center).

MATERIALS EXPENDITURES AS A PERCENT OF OPERATING EXPENDITURES

Materials Expenditures as a Percent of Operating Expenditures relates the amount spent on the library's collection to what is spent for overall operations. It is the amount spent on library materials divided by the amount spent for all operating expenses (including materials costs).

This measure indicates the proportion of the library's operating expenditures which are for materials. To that extent, it may indicate the strength of the library's commitment to its collection. Notably, however, an extremely high figure on this measure is more likely an indicator of the library's lack of commitment to paying staff, another--in fact, for most libraries, the major--cost center. Interpretation of this measure must also take into consideration what library expenses fall in the "other operating expenditures" category. If a library does a large amount of database searching, for instance, it may have hefty bills to online utilities and for telecommunications. It is best to consider the "other" costs carried by libraries in a prospective comparison group, and to include only those which do not have exceptional "other" expenses.

OUTPUT MEASURES

The output measures defined here include seven of those covered by PLA's Output Measures for Public Libraries (second edition). Each measure includes: a definition, possible uses, and the public library roles with which they are most closely associated. (See PLA's Planning and Role Setting for Public Libraries for detailed descriptions of these roles and a process for selecting and using them to plan for a public library.) The next page summarizes relationships between input-output measures and public library roles.

REGISTRATION AS A PERCENT OF POPULATION

Registration as a Percent of Population relates the number of persons registered as borrowers to the number of persons the library is established to serve. It is the number of individual registrations divided by the library's legal service area population.

This measure indicates the percentage of the library's potential users who have at least demonstrated an intent to borrow materials from the collection.

NOTE: Although all registration figures reported by Colorado public libraries are included in this document, figures for libraries which have not updated their registration files in the past three years should be regarded as being of questionable validity.

This output measure may be relevant whenever public awareness of the library is called into question. Assuming a library's registration file is up-to-date, this figure indicates the percentage of potential users who--at the very least--know the library exists and have implied an intent to use it. High Registration Per Capita may also be useful in justifying increases in input measures (such as Staff, Materials, and/or Miscellaneous Expenditures Per Capita).

A library which plays the Popular Materials Center role will strive for a high score on this output measure.

PUBLIC LIBRARY ROLES AND INPUT-OUTPUT MEASURES

Public Library Role	Measures
Community Activities Center	Library visits per capita
	Program attendance per 1,000 served
Community Information Center	Library visits per capita
	Reference per capita
	Reference per hour
	Program attendance per 1,000 served
	FTE staff per 100 reference
Formal Education Support Center	In-library use per capita
	In-library use per hour
	Reference per capita
	Reference per hour
	Turnover rate
	ILL net lending rate
	ILLs per 1,000 circulation
	FTE staff per 100 reference
Independent Learning Center	In-library use per capita
	In-library use per hour
	Turnover rate
	ILL net lending rate
	ILLs per 1,000 circulation

Public Library Role	Measures
Popular Materials Library	Circulation per capita
	Circulation per hour
	Turnover rate
	FTE staff per 10,000 circulation
Preschoolers Door to Learning	Library visits per capita
	Circulation per capita
	Turnover rate
	Program attendance per 1,000 served
Reference Library	Library visits per capita
	In-library use per capita
	In-library use per hour
	Reference per capita
	Reference per hour
	FTE staff per 100 reference
Research Center	In-library use per capita
	In-library use per hour
	Reference per capita
	Reference per hour
	ILL net lending rate
	ILLs per 1,000 circulation
	FTE staff per 100 reference

LIBRARY VISITS PER CAPITA

Library Visits Per Capita relates the number of visits made to the library to the number of persons the library is established to serve. It is attendance at the library during a typical week multipiied by 52 (the number of weeks in a year) divided by the library's legal service area population.

This measure may be estimated by counting the number of persons (excluding library staff, of course) who enter--or, if preferred, leave--the library during a typical week. A typical week is one during which the library is open its regular hours (no holidays) and which is neither extraordinarily busy nor slow.

Library Visits Per Capita indicates the average number of library visits per person served.

It is a better measure of public awareness of the library than Registration Per Capita. While registration statistics on which the latter is based may be out-of-date and, therefore, questionably valid, attendance statistics on which the former is based reflect actual visits to the library. Taken with In-Library Use, Reference, and Circulation Per Capita, and Program Attendance Per 1,000 Served, Library Visits Per Capita can be used to develop an annual profile of library use.

A library will strive for a high score on this measure if its roles include Community Activities or Information Center, Preschoolers' Door to Learning, or Reference Library.

CIRCULATION PER CAPITA

Circulation Per Capita relates the number of loans of library materials to the number of persons the library is established to serve. It is the number of loans divided by the library's legal service area population

This measure indicates the average number of loans made to each resident of the library's legal service area annually.

This output measure may be relevant whenever the size of the materials budget, the size of the collection, or its level of use is an issue. It may be useful to examine the relationship of this measure to selected input and output measures. For example, lower Circulation Per Capita is a likely result of lower Materials Expenditures and Volumes Held Per Capita. It is also likely to lead to more ILLs Per 1,000 Circulation.

A library which plays either the Popular Materials Center or Preschoolers' Door to Learning role will strive for a high score on this output measure.

REFERENCE PER CAPITA

Reference Per Capita relates the number of information contacts in which a staff member involves information sources to the number of persons the library is established to serve. It is the number of reference transactions per typical week multiplied by 52 divided by the library's legal service area population.

This measure indicates the average number of times a resident of the library's legal service area received staff assistance in using information sources available at or accessible through the library.

Reference Per Capita may be relevant whenever the impact of reference service is an issue. Comparing this figure to Circulation and In-Library Use Per Capita may be useful in assessing the reference desk as an access point for information available in the local collection. Comparing it to ILLs Per 1,000 Circulation and ILL Net Lending Rate may be useful in assessing access via the reference desk to information that may not be available locally.

A library will strive for a high score on this output measure if its roles include Community Information Center, Reference Library, or Research Center.

IN-LIBRARY USE PER CAPITA

In-Library Use Per Capita relates the number of materials used in the library (but not checked out) to the population the library is established to serve. It is in-library use per typical week multiplied by 52 (weeks per year) divided by the library's legal service area population.

In-library use per typical week may be determined by counting the number of items to be reshelved or refiled during a typical week (that is, one in which the library is open regular hours with no holidays and which is neither unusually busy nor slow) or a week's worth of typical days (for example, Monday the first week, Tuesday the second week, and so on).

This measure indicates the average number of items used in the library per resident of the library's legal service area.

This output measure may be relevant when evidence of library use is required. To the extent that people turn to the library as a source of useful information (instead of recreational reading), In-Library Use Per Capita is at least as important to consider as Circulation Per Capita.

A library will strive for a high score on this output measure if its roles include: Formal Education Support Center, Independent Learning Center, Reference Library, or Research Center.

CIRCULATION PER HOUR

Circulation per Hour relates the number of loans of library materials to the number of hours the library is open to the public. It is total annual circulation divided by 52 (weeks per year) divided by hours open per week.

This statistic is a measure of library traffic relative to circulation. This figure will be of special interest to libraries playing the role of Popular Materials Library.

REFERENCE QUESTIONS PER HOUR

Reference Questions per Hour relates the number of reference questions handled by the library to the number of hours it is open to the public. It is the total annual number of reference questions divided by 52 divided by hours open per week.

This statistic is a measure of library traffic relative to reference. This figure will be of special interest to libraries playing the roles of Community Information Center, Independent Learning Center, Reference Library, and Research Center.

TURNOVER RATE

Turnover Rate relates the number of loans of library materials to the size of the collection. It is the number of loans divided by the number of volumes held in the collection at the end of the year.

Turnover rate indicates how often each item in the collection was loaned, assuming that circulation was evenly distributed among the library's holdings.

This measure may be relevant whenever use of the collection is an issue. In that case, it may be useful to compare this figure to selected inputs (i.e., volumes held per capita) and outputs (such as circulation per capita and ILLs per 1,000 circulation).

A library will strive for a high score on this output measure if its roles include Formal Educational Support Center, Independent Learning Center or Popular Materials Center.

ILL NET LENDING RATE

Inter-Library Lending Net Lending Rate relates the number of materials provided to other libraries through interlibrary loan to the number of materials borrowed from other libraries through interlibrary loan. It is the number of items loaned divided by the number of items borrowed.

This measure indicates items loaned as a percentage of items borrowed.

This output measure may be relevant whenever the the library's participation in interlibrary loan activities is an issue. It indicates whether the library does more lending (scoring over 1.0) or more borrowing (scoring less than 1.0). "Net Borrowers" may use this figure as evidence of what they gain from participating, while "net lenders" may use it to argue for maintaining strong collections.

A library will strive for a high ILL Net Lending Rate if its roles include Formal Education Support, Independent Learning, or Research Center.

ILL'S PER 1,000 CIRCULATION

ILLs Per 1,000 Circulation relates the number of materials borrowed from other libraries to the number of materials from the local collection made available to borrowers. It is the number of ILL requests divided by total circulation multiplied by 1,000.

This measure indicates the number of interlibrary loans for every 1,000 items circulated from the local collection.

A higher ILLs Per 1,000 Circulation might indicate better performance by the library as an access point for information not contained in the local collection. A lower figure might indicate that the local collection was doing a better job of meeting user needs. Interpretating this statistic would depend on which issue was at hand as well as the actual amount of ILL and circulation activity per capita. (Higher levels of ILL and circulation activity would favor the former interpretation, while lower levels of such activity would favor the latter interpretation.)

A library will strive for a high score on this output measure if its roles include Formal Education Support Center, Independent Learning Center, or Research Center.

PROGRAM ATTENDANCE PER 1,000 SERVED

Program Attendance Per 1,000 Served relates attendance of scheduled presentations which are sponsored by the library and deal with information services (on or off library premises) to the population the library is established to serve. It is program attendance divided by the library's legal service area population in thousands.

Program Attendance Per 1,000 Served indicates the number of residents per 1,000 in the library's legal service area who attended a library program during the year.

This output measure may be relevant whenever the library needs to demonstrate its services to groups (in contrast to traditional services to individuals, such as circulation and reference).

A library will strive for a high score on this output measure if its roles include Community Activities Center or Independent Learning Center.

STATISTICS AND INPUT-OUTPUT MEASURES

COLORADO PUBLIC LIBRARIES
ANNUAL REPORT FORM
AND INSTRUCTIONS
FOR 1990

INSTRUCTIONS

COLORADO PUBLIC LIBRARIES ANNUAL REPORT 1990

PART I - GENERAL INFORMATION

1. SPECIFYING THE LEGAL SERVICE AREA. The library's legal service area is the geographical area (i.e., town, city, county, or school district) for which it has been established to offer services and from which (or on behalf of which) the library derives its primary income PLUS any areas served under contract.

The legal service area of a public library DOES NOT include the legal service area of another public library with which the reporting library has a reciprocal borrowing agreement. Only the jurisdiction for which the library is the SOLE or PRIMARY source of library service should be claimed.

An area is served under contract if the reporting library or its jurisdiction has a written agreement with another library or jurisdiction to provide library services to all or a specified part of the population residing in the other jurisdiction. For instance, a city public library may have a written agreement with its county to provide library service to a percentage of the population living in unincorporated areas of the county. Presumably, there will be a written agreement between the governmental units involved in such cases.

EXAMPLES:
Population of Coloradoville.
Population residing in Coloco school district.
Population of Coloradoville plus 10% of population in unincorporated areas of Coloco county.

3. INDIVIDUAL AND FAMILY/HOUSEHOLD REGISTRATION. Item 3a. asks for a combined count of registrations by individuals including adults young adults and juveniles.

Item 3b. asks for family or household registrations, only where such registrations take the place of individual registration. To obtain an estimate for individuals, please multiply number of family/household registrations by 3.19 (an estimate of average number of people per family) to obtain the number of individuals and record in the right hand blank. If family/household registrations do not apply, please record a zero in the blank.

Item 3c. asks for the sum of 3a and 3b.

4. SERVICE OUTLETS. Item 4a. asks for a count of the only or central library and any branches or library district members that do not report separately.

PART II -- LIBRARY STAFF

5-7. LIBRARIANS, OTHER STAFF, TOTAL PAID STAFF. Item 5 asks for the number of paid "librarians" in full-time equivalents (FTEs), WHETHER OR NOT they have the Master of Library Science (MLS) degree accredited by the American Library Association.

See the work sheet on the following page for easy-to-follow directions for calculating FULL-TIME EQUIVALENTS.

Item 6 asks for all other paid staff in FTEs, excluding plant operation, security, and maintenance staff. Item 7 is the sum of those two figures.

8. LIBRARIANS WITH ALA-ACCREDITED MLS. Item 8 asks for a separate FTE count of librarians who have ALA-accredited MLS degrees. These FTEs should also have been counted in item 5.

PART III -- LIBRARY INCOME

9a.-9c. LOCAL INCOME BY SOURCE (CITY, COUNTY, LIBRARY DISTRICT) & TYPE (GENERAL FUND, SALES TAX, MILL LEVY).

Local income amounts are requested by both source and type. Please provide these figures in whole dollars amounts in items 9a.-9c.

9d. MILL LEVY RATE. If a figure is entered for item 9c under city, county, or district, enter here the mill levy rate on which that figure is based.

9e. OTHER LOCAL INCOME. Item 9e. asks for any other local income, excluding private foundation grants and corporate giving, library-generated income, and individual gifts and donations, all of which are requested in subsequent items.

9f. TOTAL LOCAL OPERATING INCOME. Item 9f. asks for the total of items 9a. - 9c. and item 9e.

WORK SHEET FOR CALCULATING
FULL-TIME EQUIVALENT (FTE) STAFF

Items 5-8 ask for staffing figures in FULL-TIME EQUIVALENTS --or FTEs. For FTE figures to be comparable across libraries, they must use the same base number of hours per week to define "full-time". For that reason, a 40 hour work week is assumed in these figures--even for libraries which are not open 40 hours per week. So, even though a staff member may work all of the hours the library is open, if that number of hours is less than 40, she or he should not be counted as 1.0 FTE for purposes of this report.

The following sample work sheet may be useful in determining the number of FTEs to report for each of items 5-8 for this library.

EXAMPLE

STAFF MEMBER		HOURS PER WEEK			
1.	Jane Smith	20			
2.	John Brown	20			
3.	Nancy Jones	10			
4.	Bill White	10			
	TOTAL	60	/40	=	1.5

WORK SHEET

STAFF MEMBER		HOURS PER WEEK			
1.					
2.					
3.					
4.					
5.					
6.					
7.					
8.					
9.					
10.					
	TOTAL (1-10)	____	/40	=	____

10. STATE INCOME. Item 10 asks for the total of all income received by the library from state sources. This includes county equalization grants, payment-for-lending reimbursements, Colorado Endowment for the Humanities grants, etc. It excludes federal funds distributed by the state, such as Library Services and Construction (LSCA) Act grants, etc.

11. FEDERAL INCOME. Item 11 asks for the total of all income received by the library from federal sources. This includes grants from LSCA Title I and III, National Endowment for the Humanities, etc.

12. PRIVATE FOUNDATION GRANTS & CORPORATE GIVING. Item 12 asks for the total of all income raised from private foundations, corporations, businesses, non-profit organizations, and other private groups. It excludes both in-kind support from private groups and cash gifts and donations from individuals.

13. LIBRARY-GENERATED INCOME (if retained by the library). Item 13 asks for the total of all income raised by the library through its own activities. Such activities include photocopying, fines, book sales, fee-based services, reciprocal borrowing, etc.

14. INDIVIDUAL GIFTS & DONATIONS. Item 14 asks for the total of all income received as cash gifts and donations from individuals. It excludes both funds received from private foundations, corporations, businesses, non-profit associations, and other groups and in-kind support from groups or individuals.

15. OTHER LIBRARY INCOME. Item 15 asks for the source and total of all income not reported in items 9a.-14.

16. TOTAL LIBRARY INCOME. Item 16 is the total of items 9f.-15.

17. CAPITAL INCOME. Item 17 asks for a report of the total of all local, state, federal and other funds acquired to be spent or added to fixed assets, such as building sites, new buildings and building additions, new equipment (including major computer installations), initial book stock, furnishings for new or expanded buildings, and new vehicles. This item excludes replacement and repair of existing furnishings and equipment, regular purchase of library materials, and investments for capital appreciation.

18. IN-KIND RESOURCES. Item 18 asks for an estimate of the amount of tax dollars represented by resources provided on an in-kind basis, which the library wishes to be counted toward local maintenance of effort for county equalization eligibility.

PART IV -- LIBRARY EXPENDITURES

19. SALARIES & WAGES, EMPLOYEE BENEFITS, AND TOTAL STAFF EXPENDITURES. Items 19a. and 19b. ask for expenditures on staff salaries & wages and employee benefits separately, while item 19c. is the total of those two items. If separate figures for salaries & wages and employee benefits are not available, enter total staff expenditures for item 19c.

20. MATERIALS EXPENDITURES (BY TYPE AND TOTAL) Items 20a.-20c. ask for expenditures on print materials, periodical subscriptions, and computer software.

    Items 20d. and 20e. ask for expenditures on video materials and CD-ROM machine readable disks separately. (In past years, expenditures on video materials and CD-ROM have been combined with audio materials and films.) Separating out video and CD-ROM expenditures will make it possible to begin tracking the impact on library budgets of these increasingly popular formats.

    Item 20f., other materials expenditures, is now the place to report expenditures for audio and film as well as on other formats such as microforms not designated in other categories.

    Item 20g. asks for the total of all expenditures reported in items 20a.-20f.

21. MISCELLANEOUS OPERATING EXPENDITURES
    Item 21a., preservation/conservation, is a continuing category of miscellaneous operating expenditures. Items 21b. and 21c., telephone/telecommunications and postage, incorporate items found in a separate category in recent years. Item 21d., other miscellaneous operating expenditures, includes library furniture & equipment and maintenance & operation, which have been separate items in past years. Item 21e., total miscellaneous operating expenditures, is the total of all expenditures reported in items 21a.-21d.

22. TOTAL OPERATING EXPENDITURES. Item 22 is the total of items 19c., 20g., and 21e.

23. CAPITAL OUTLAY. This item asks for the total of all funds spent to acquire or add to fixed assets, such as building sites, new buildings and building additions, new equipment (including major computer installations), initial book stock, furnishings for new or expanded buildings, and new vehicles. This item excludes replacement and repair of existing furnishings and equipment, regular purchase of library materials, and investments for capital appreciation.

PART V -- LIBRARY MATERIALS

24-28. LIBRARY MATERIALS (BY TYPE) Items 24-28 ask for numbers of volumes or physical units (cassettes, disks, reels, etc.) in SELECTED categories. These include bound volumes of books and periodicals; audio materials such as records, cassettes and compact disks, films, video materials, and machine readable data such as computer software packages and CD-ROMs.

NOTE: Items asking for counts of uncataloged materials, government publications (if a separate collection), microforms, and "other" materials as well as the total of volumes or physical units across type have been dropped, owing to their lack of use.

29. CURRENT PERIODICAL & NEWSPAPER SUBSCRIPTIONS. Item 29 asks for the number of subscriptions received by the library, NOT the number of individual issues. Duplicate titles (multiple subscriptions to LIFE magazine for a main library and its branches, etc.) should be counted.

PART VI -- SERVICE PER TYPICAL WEEK

30a-b. PUBLIC SERVICE HOURS PER TYPICAL WEEK

30a.--UNDUPLICATED. Consider both main library and branches using the following method. If a library is open from 9:00 am to 5:00 pm Monday-Friday, it should report 40 hours per week. If its branches are also open during those hours, the figure remains 40 hours. Should Branch A also be open one evening from 5:00-7:00, the total hours during which users can find service becomes 42. If Branch B is open the same hours on the same evening, the total remains 42; but, if it is open 2 more hours on another evening, the total becomes 44. Include bookmobiles, if applicable.

30b.--DUPLICATED. Count both main library and branches using the following method. If the main library is open 60 hours per week, report 60 hours. If you also have 3 branch libraries open the same number of hours as the main library (regardless of whether or not all facilities are open at the same time), the weekly figure for the library and its branches is 240 hours (4 times 60). Include bookmobiles, if applicable.

31-32. PER TYPICAL WEEK Items 31-32 ask for counts for a "typical week". A typical week is one in which the library is open its regular hours without any holidays. It is seven consecutive calendar days, Sunday-Saturday, or whatever days the library is open during that period. A typical week for most public libraries will fall between September and April. However, a typical week will have to be identified by each library based on its own patterns of use.

As an alternative to counting services provided for a "typical week", a decision might be made to count the number of times a service is provided for a typical week worth of days. For example, if a library is open 5 days per typical week, counts might be made on 5 randomly selected dates from throughout the year. These dates should meet the "typical week" criteria (regular hours, no holidays) and may be selected using a table of random numbers or by simply picking numbers for a month (1-12) and a date (1-31) "from a hat" until 5 valid dates have been selected

31.LIBRARY VISITS PER TYPICAL WEEK. Report the total number of persons entering the library for a typical week, including those attending meetings, those who "just use the photocopier" or "go to the restroom", and those requiring no services.

32.IN-LIBRARY USE PER TYPICAL WEEK. Report the total number of materials used in the library, but not checked out. The simplest method for estimating in-library use is to post signs asking users not to re-shelve materials used in the library and to count these items before re-shelving them.

NOTE: Please do not include directional questions in this count. Such contacts help someone use the library, but do not involve any information sources other than those which describe the library (library maps, directions to a certain department or area, staff member, building feature, or--of course--the restrooms.

PART VII -- ANNUAL SERVICE

33. ADULT, JUVENILE, AND TOTAL CIRCULATION. Report circulation of adult and juvenile materials separately, if possible. Juvenile materials are those purchased for use by pre-school through 6th grade children. If separate circulation records are not kept, please estimate. If estimates cannot be made, report total circulation for item 33c.

34. REFERENCE QUESTIONS HANDLED ANNUALLY (OR TYPICAL WEEK ESTIMATE TIMES 52). Report the number of contacts with library users which involve the knowledge, use, recommendation, interpretation, or instruction in the use of one or more information sources by library staff. Information sources may include any type of library materials, online database searches, union catalogs or lists, or other persons within or beyond the library (including communication without referrals to other libraries). Please count all reference questions asked by all users, regardless of age.

35-36. GROUP PROGRAMS/PRESENTATIONS AND ATTENDANCE (CHILDREN & ADULTS). An information contact in which a staff member (or person invited by a staff member) provides information intended for a number of persons and planned in advance. Group programs or presentations may be either library instruction or cultural, recreational, or educational events. Events both on and off library premises are included, as long as they are sponsored by the library. Such service does not include meetings sponsored by other groups using library meeting space.

If possible, report separate numbers of programs/presentations and separate attendance figures for children and adults. If separate records are not kept, please estimate. If estimates cannot be made, report total programs/presentations for item 35c. and total attendance for item 36c.

37. INTERLIBRARY LOANS. Report materials provided to other libraries for item 37a. and materials received from other libraries for item 37b.

PART VIII -- STAFF SALARIES AND WAGES

38-42. DIRECTOR, ASSISTANT DIRECTOR, DEPARTMENT HEAD, SPECIALISTS, STARTING LIBRARIAN. For each of these five positions, use the "Low" and "High" columns to report the annual salary range. If the library has a salary schedule, use that range; use actual salaries only if the library does not have a salary schedule. If reporting an actual salary for a single employee (e.g., director), please enter the same salary figure in both the low and high columns. For each salary figure entered, be sure to indicate the number of hours paid per week. Be sure to circle YES or NO as to whether or not the position requires the Master of Library Science degree.

NOTE: For full-time professionals not considered to be paid on an hourly basis, enter 40 under "hours per week". Also distinctions are made between "Department heads" who supervise others in their areas and "Specialists" whose work is specific subject (science, business, music) or client (children, adults, homebound) and do not necessarily supervise others.

43-44. LIBRARY ASSISTANT & LIBRARY CLERK. For these two positions, report only the hourly wage range. As with annual salaries, report figures from a wage scale, if available, or actual wages, if there is no scale for the library. Also, as with salaries,enter the same figure in both the low and high columns, if reporting a single wage rate.

PART IX -- AUTOMATION ISSUES

45. Please indicate if your library has a) a fax machine and b) a computer modem by circling YES or NO.

PART X -- FRIENDS OF LIBRARY GROUP PARTICIPATION

46. Item 46 asks if this library has a friends of the library group. If the answer is NO, then please continue at question 49. If the answer is yes, please answer items 47, 48 and 49 about the friends of library group and its activities.

PART XI -- CHALLENGED MATERIALS

49. Item 49 asks for a report or estimate of the number of titles of library materials which may have been challenged during 1990.

NOTE: Please count any attempt--successful or unsuccessful--by any individual or group to have any title (regardless of format) removed from the library or to have access to the material restricted. Such a challenge might be because of the origin, background, or views of those contributing to a title's creation or because of partisan or doctrinal disapproval. A challenge should be counted if a public oral or written complaint is lodged (e.g.,editor, library administration). If a challenge to an exhibit is made, count separately those specific materials in the exhibit to which the complainant objects.

PART XII -- HEALTH INSURANCE COVERAGE

50. Items 50 asks about employer contributions or provision of health insurance coverage.

51. Items 51a, b, and c ask for information about employer and employee contributions to health insurance coverage for individual and employees and their dependents. Please report or estimate contributions in whole dollars per month.

PART XIII -- YOUNG ADULT PROGRAMMING

52. Items 52-54 ask about young adult materials, staff and programming.

COLORADO PUBLIC LIBRARIES ANNUAL REPORT 1990

Incorporating Items for the Federal/State
Cooperative System for Public Library Data

RESPONDENT IDENTIFICATION

Library________________________________

Street/Mailing Address________________________________

City________________ County________________ Zip Code________________

Person Completing Report________________________________

PART I - GENERAL INFORMATION

(See Instructions, p. 1)

1. Specify the legal service area of this library ________________________________

____

2. Has the library updated its registered borrower file at least once during the past three years? (Circle Yes or No.) YES NO

3. Registered borrowers: *Number*

   a. Individual (adult, juvenile and young adult, if applicable) ________

   b. Family/Household registration (please record family/household registrations in blank and multiply by 3.19 for an average number) ________ x 3.19 = ________

   c. TOTAL REGISTRATION (Sum of a. & b.) ________

4. Service outlets:

   a. How many service outlets does this library administer? (Include the only or central library as well as any branches or library district members that do not report separately.) ________

   b. Bookmobiles (number of vehicles, not stops) ________

   c. Other service outlets (deposit collections in nursing homes, hospitals, jails, etc.) ________

PART II - PAID LIBRARY STAFF

(See Instructions, p. 2 and Work Sheet, p. 3)

NUMBER OF FTE
(Full-Time Equivalents)

5. All librarians ________

6. All other staff (except plant operations, security and maintenance staff) ________

7. **TOTAL PAID LIBRARY STAFF (Sum of 5 & 6)** ________

8. Librarians with ALA-accredited MLS degrees (included in 5) ________

PART III - LIBRARY OPERATING INCOME

(Use whole dollars only and see Instructions, pp. 2 and 4)

9. Local income:		City	County	District
a.	General fund	$______.00	$______.00	$______.00
b.	Sales tax	$______.00	$______.00	$______.00
c.	Mill levy	$______.00	$______.00	$______.00
d.	Mill levy rate (if applicable)			________
e.	Other local government income (specify source)________			$______.00
f.	TOTAL LOCAL INCOME (Sum of 9a. - 9c. & 9e)			$______.00

10. State income (county equalization, payment for lending, Colorado Endowment for the Humanities, etc.) $______.00

11. Federal income (Library Services and Construction Act [LSCA Title I, III] National Endowment for the Humanities. etc.) $______.00

12. Private foundation grants and corporate giving (El Pomar Foundation, Coors, etc.) $______.00

13. Library-generated income (if retained by library) (photocopying, fines, book sales, fee-based services, reciprocal borrowing, etc.) $______.00

14. Individual gifts and donations $______.00

15 Other income (specify source)________________ $______.00

16. **TOTAL OPERATING INCOME (Sum of 9f. - 15)** $______.00

17. Capital income (LSCA Title II, gifts for capital fund, income from bonds) $______.00

18. Estimated value of in-kind resources (only if counted for county equalization eligibility) $______.00

PART IV - LIBRARY EXPENDITURES

(See Instructions, pp. 5-6)

19. Staff expenditures:

a. Salaries and wages (excluding plant operation, security and maintenance staff) $________.00

b. Employee benefits (excluding plant operation, security and maintenance staff) $________.00

c. TOTAL STAFF EXPENDITURES (Sum of 19a. & 19b.) $________.00

20. Materials expenditures:

a. Print materials (excluding periodical subscriptions, microforms) $________.00

b. Periodical subscriptions (all formats) $________.00

c. Computer software $________.00

d. Videocassettes, videodiscs $________.00

e. CD-ROM (machine readable disks) $________.00

f. Other materials (audio, film, microforms, etc.) $________.00

g. TOTAL MATERIALS EXPENDITURES (Sum of 20a. - 20f.) $________.00

21. Miscellaneous operating expenditures:

a. Preservation/conservation (binding, re-binding, acid-free boxes, etc.) $________.00

b. Telephone, telecommunications costs $________.00

c. Postage $________.00

d. Other costs (utilities; plant operation, security and maintenance salaries; furniture and equipment, supplies, etc.) $________.00

e. TOTAL MISCELLANEOUS OPERATING EXPENDITURES (Sum of 21a. - 21d.) $________.00

22. TOTAL OPERATING EXPENDITURES (Sum of 19c., 20f. & 21e.) $________.00

23. Capital outlay (new building, renovation, computerization etc.) $________.00

PART V - LIBRARY MATERIALS

(See Instructions, p. 6)

Volumes or Physical Units
Held at End of 1990

24. Bound Volumes:

a. Books, 24a. ________

b. Periodicals 24b. ________

25. Audio materials:

a. Records 25a. ________

b. Cassettes 25b. ________

c. Compact discs 25c. ________

26. Films 26. ________

27. Video materials 27. ________

28. Machine Readable Data:

f. Computer software packages 28f. ________

g. CD-ROM (machine readable data) 28g. ________

29. Current periodical and newspaper titles (including duplicate titles) 29. ________

PART VI - SERVICE PER TYPICAL WEEK

(See Instructions, pp. 6-7)

30. Public service hours per typical week: *Number*

a. **Unduplicated** (if reporting for a library with branches or all libraries in a library district, do not count overlapping hours) 30a. ________

b. **Duplicated** (if reporting for a library with branches or all libraries in a library district, do count overlapping hours) 30b. ________

31. Library visits per typical week 31. ________

32. In-library use per typical week 32. ________

PART VII - ANNUAL SERVICE

(See Instructions, p.8)

Number

33. Circulation:

a. Adult ________

b. Juvenile ________

c. **TOTAL CIRCULATION (Sum of 33a. & 33b.)** ________

34. Reference questions handled annually (or typical week estimate times 52) ________

35. Group programs/presentations:

a. Children (story hour, summer reading, etc.) ________

b. Adult (including young adults, if applicable - "Let's Talk About It", literacy, etc.) ________

c. **TOTAL GROUP PROGRAMS/PRESENTATIONS (Sum of 35a. & 35b.)** ________

36. Group program/presentation attendance:

a. Children attending programs/presentations ________

b. Adults (including young adults, if applicable) attending programs/presentations ________

c. **TOTAL GROUP ATTENDANCE (Sum of 36a. & 36b.)** ________

37. Interlibrary loans:

a. Provided to other libraries ________

b. Received from other libraries ________

PART VIII - STAFF SALARIES AND WAGES

(See Instructions, p. 9)

	Position	*Low Annual Salary*	*Hours Paid/ Week**	*High Annual Salary*	*Hours Paid/ Week**	*Requires MLS Degree? (Circle One)*
38.	Director	$________	_____	$________	_____	YES NO
39.	Assistant Director	$________	_____	$________	_____	YES NO
40.	Department Head**	$________	_____	$________	_____	YES NO
41.	Specialists***	$________	_____	$________	_____	YES NO
42.	Starting Librarian	$________	_____	$________	_____	YES NO

* For full-time professionals not considered to be paid on an hourly basis, enter 40.

** This category assumes supervisory responsibility

*** This category includes specialists by subject (e.g., science, business, music), function (reference, interlibrary loan, cataloging), or client (e.g., children, adults, homebound).

		Low Hourly Wage	*High Hourly Wage*
43.	Library Assistant	$_____.____	$_____.____
44.	Library Clerk	$_____.____	$_____.____

PART IX -- AUTOMATION ISSUES

(See Instructions, p.9)

(Circle one)

45. a. Does your library have a FAX machine ? YES NO

b. Does your library have a computer modem ? YES NO

PART X -- FRIENDS OF LIBRARY GROUP PARTICIPATION

(See Instructions, p.9)

46. Does this library have a Friends of the Library group? YES NO
(If NO, then continue with PART XI)

47. If YES, how many members does it have? ________

48. If YES, how many of the following types of activities has the group sponsored during the past year?

a. book sales, auctions, other sales ________

b. film, lecture series ________

c. receptions, luncheons, dinners ________

d. other activities (specify type)________________________ ________

48. If YES, how much money did the group raise during the past year? ________

PART XI -- CHALLENGED MATERIALS

(See Instructions, p.10)

49. Please report or estimate the number of titles of challenged library materials during 1990. ________

NOTE: Please count any public attempt (successful or not) of written or oral complaint to have material or exhibits removed from public access or removed from the library entirely.

PART XII -- HEALTH INSURANCE

(See Instructions, p.10)

50. Does this library contribute or provide health insurance to its full time employees? (please circle YES or NO) YES NO

(If NO, then continue with PART XIII.)

51. Please indicate employer and employee contribution per month toward health insurance using whole dollar amounts for:

		CONTRIBUTIONS	
		employer	*employee*
a.	one employee	________.00/month	________.00/month
b.	employee with one dependent	________.00/month	________.00/month
c.	employee with two or more dependents	________.00/month	________.00/month

PART XIII -- YOUNG ADULT PROGRAMMING

(See Instructions, p.10)

(Circle one)

52. Does this library have a designated collection of young adult materials? YES NO

53. Did this library employ during 1990 any staff specifically assigned to serve young adults? YES NO

54. Did this library offer any programs specifically designed for young adults during 1990? YES NO
